ASKS ACCOUNTING OF WAX COMPANY

Stockholder Avers President
and Secretary Have Hid-
den Books of Concern.

Charging that funds of the Uintah Mineral Wax company have not been accounted for by H. Mortimer Black and Palma Black, president and secretary, respectively, Thomas M. Monzigo filed suit in the district court yesterday asking for the appointment of a receiver. Judge C. W. Morse issued an alternative writ of injunction, returnable next Saturday at 10 o'clock, calling upon the president and secretary to show cause why a receiver should not be appointed.

Monzigo says he is one of the largest stockholders in the Uintah Mineral Wax company, and that he represents thirty other stockholders. The company was incorporated under the laws of Arizona on July 2, 1906, with a capitalization of \$500,000, with shares at \$1 each. The company owns a number of mineral wax deposits in Uintah county.

Monzigo claims that H. Mortimer Black as president and Palma Black as secretary have neglected to operate the mines, and that for three years no development work has been done. He also claims that the books of the company have been hidden from the stockholders.

It is further charged that the president and secretary have been selling stock held by themselves and some of the capital stock, but have made no report of the sales. Monzigo says the Blacks refuse to account for these sales.

Claims amounting to about \$200 against the company, Monzigo says, should be paid.

It is also charged that the tactics of the president and secretary of the company have made stockholders or directors meetings impossible, and none has been held since the organization of the company. The court is asked to compel them to produce all deposit books, check books, canceled checks, receipts and other books, and to restrain the two officers from selling any of the capital stock. An accounting for the stock alleged to have been sold is also asked.

DECIDES TWO LAND CASES

Register Cancels Homestead Entry of
Gabriel Huntsman—State
Loses Litigation.

Decisions were given Tuesday in two land cases. One of the decisions was made in the case of James G. Berryhill against the state of Utah, brought to settle the title to land in township 16 south, range 8 east, in Emery county. The land had been selected by the state for agricultural purposes, but it was decided, after hearing the testimony, that it was more valuable for coal mining purposes, and the decision was given in favor of Berryhill. The state has the right of appeal. The other decision was given in favor of John T. Ashman against the heirs of Gabriel Huntsman, who had taken up a homestead of 80 acres in township 21 south, range 4 west, it was decided that Mr. Huntsman had not maintained a residence in this state, and his homestead was cancelled.

Something in some ad today
is, in reality, a message to you.

INCORPORATIONS.

The Automobile Exchange filed amended articles of incorporation with the county clerk yesterday, increasing the capital stock from \$5,000 to \$50,000. This action was taken at a meeting held on Oct. 1, at which A. T. Williams was chairman and E. C. Trask secretary.

The Mizpah club filed articles with the county clerk yesterday, naming Arthur Robertson, president of the board of trustees; Ernest Rinney, secretary, and Edwin Hill, treasurer.

SPORTSMEN PAY FOR THE OFFICE

Fish and Game Commission
Gets No Appropriation
From the State.

Fred W. Chambers, state fish and game commissioner, on Tuesday noticed a statement in one of the city papers, crediting Judge Alexander McMaster of the juvenile court of this district, in an address before the Woman's Civic league, with comparing the small amount of funds allotted to the juvenile court with that given for the protection of the fish and game of the state.

Judge McMaster was quoted as saying that there is an appropriation of \$50,000 for the protection of the fish and game of the state, while only \$25,000 was set aside for the juvenile court. The statement was said to have been called forth by the remarks of Judge McMaster on the need of a detention home.

Mr. Chambers said he agreed with Judge McMaster as to the need of the detention home, but he wished to correct the impression that the fish and game department gets the appropriation mentioned. No appropriation having been made for the department, which is maintained by the funds received from the sale of hunting and fishing licenses; in short, by the sporting men of the state. "There was between \$5,000 and \$7,000 in the treasury of the department when I took hold this year," said Commissioner Chambers Tuesday. "And this sum was set aside for the building and improvement of the hatcheries in the state. The money is being used for this purpose."

LUNATIC TO BE DEPORTED

Austrian Whose Affliction Antedates
Arrival Here May Be
Sent Back.

V. Yafinen of the local immigration office in the federal building, spent Monday in Provo investigating the case of August Thomsen, a native of Austria, who is a public charge by reason of insanity. The physician who examined Thomsen found that his affliction existed prior to his coming to this country, hence he is subject to deportation.

Thomsen came to this country about two years ago, and worked in the mines at Rock Springs, Wyo., coming from there to Salt Lake, where his insanity became apparent, and he was sent to the state mental hospital. He is about 20 years old, and has a father and mother near Vienna. An order from Washington directing Thomsen's deportation is expected in about two weeks.

SETTLE M'FADDEN SUIT.

Damages and Insurance Given Estimate by Stipulation.

Through a stipulation entered in Judge T. D. Lewis division of the district court yesterday the estate of Wayne A. McFadden, who was killed in the mine of the Ohio Copper company at Brigham on May 28, receives \$40,000 as damages, an additional \$12,500 as damages. The suit was filed by John P. Turner, administrator of McFadden's estate, asking for \$50,000 damages and the insurance money. The insurance money came as an agreement between the company and McFadden, as with other employees, to hold out a portion of the salaries for the benefit of the families of persons injured. McFadden was 21 years old and was employed as a skip tender.

Real Estate Won't Burn, But How About the Buildings On It?

WE REPRESENT

The Williamsburg Insurance Company

WHO PAID LAST YEAR IN LOSSES \$735,294.00
Which represents over half of premiums on insurance written during year.

The Spring Garden Insurance Company

WHO PAID LAST YEAR IN LOSSES \$993,348.00
Only \$6,652.00 less than a million dollars, or 55 per cent of premiums charged insured.

The assets of these two companies are \$6,383,172, and the definition of that amount, "according to Webster," is ABSOLUTE PROTECTION.

Sugar House ward had a \$100,000 fire. Some of the "burned out" had insurance—most of them had not. AND WHY? An insurance solicitor hadn't seen them.

Have you ever inquired what insurance costs? Do you realize that you can get \$2,000 insurance on a brick house—for 3 years—for \$14! Just figure this out, 38c per month will give you \$2,000 protection for 36 months—on your house or furniture.

For a little more we can insure your store, fixtures, merchandise, barn, horses, etc. You need lose nothing by way of fire. It is your own fault if you do.

A short time ago we talked insurance to a client of ours. "My building has been there for 16 years—I never had insurance—I can afford to lose now, for the premiums I would have paid would amount to a small fire." However, this man—his name was A. Wise—just took out "a thousand." April 26th of this year, our good man had a fire. The insurance company paid him \$613, and this covered a new floor in the building, newly decorated wall, new paint—in fact, a new store room, and all for about \$12.

Call us up on either phone, "No 72." Tell us how much you need and ask for cost. We will surprise you.

The time for losing by fire has gone.
The time for purchasing absolute protection is here.
And the cost is nothing, comparatively.
